

MANJU THAKOR

Frontend Developer | React.js • Next.js • JavaScript

+91 9898343610 | thakor.manju.391@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 3+ years of experience building responsive, high-performance web applications using React.js and Next.js. Proven ability to translate complex client requirements into scalable, user-centric interfaces while collaborating closely with cross-functional teams. Adept at REST API integration, performance optimization, and delivering production-ready features on schedule.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3

UI Libraries: Tailwind CSS, Bootstrap, Ant Design, jQuery

Tools & Platforms: Git, GitHub, VS Code, Chrome DevTools, Linux

Core Concepts: REST API Integration, Responsive Design, Performance Optimization, Cross-functional Collaboration

WORK EXPERIENCE

Frontend Developer · PySquad Informatics Sep 2023 – Present (1 yr 8 mo)

- Engineered and maintained responsive, scalable web applications using React.js, Next.js, Tailwind CSS, Bootstrap, and Ant Design, reducing UI inconsistencies across devices.
- Integrated 10+ REST APIs and applied performance optimization techniques, improving application load times and overall user experience.
- Partnered with backend engineers, designers, and stakeholders across full project lifecycle to consistently deliver features on or ahead of schedule.
- Analyzed client requirements and proposed efficient frontend architectures, reducing rework cycles and accelerating delivery timelines.
- Championed best practices in component reusability and code maintainability, contributing to a cleaner, more scalable codebase.

Frontend Developer Intern · Tops Technologies Jan 2023 – Jun 2023 (6 mo)

- Built and deployed multiple responsive web pages and mini-projects using HTML5, CSS3, JavaScript (ES6+), and React.js.
- Gained hands-on experience integrating front-end interfaces with REST APIs, strengthening understanding of frontend-backend communication.
- Accelerated debugging proficiency by resolving UI and logic issues through systematic use of browser developer tools.

KEY PROJECTS

Marinapy – Marina Management SaaS Platform | React.js, Next.js, Ant Design, REST APIs, Tailwind CSS

- Developed a cloud-based marina management SaaS platform covering end-to-end operations including berth management, CRM, billing, and client communication.
- Built responsive, map-based data visualization interfaces enabling marina operators to monitor occupancy and assets in real time.
- Implemented self-service onboarding flows and mobile-ready UI components, improving accessibility and adoption for global users.
- Collaborated with backend teams to integrate REST APIs across all modules, ensuring seamless and reliable data flow throughout the platform.
- Optimized frontend performance for large datasets, maintaining smooth user experience at scale across complex operational dashboards.

Texture – Digital Marketing SaaS Platform | React.js, REST APIs, Django Templates

- Contributed to a SaaS platform combining REST API integration and Django templates to deliver AI-powered text analysis and advertising enhancement tools.
- Built dynamic UI components enabling marketers to seamlessly integrate API-driven workflows for automated ad optimization and content analysis.
- Leveraged Django template rendering to support context-aware, dynamic content optimization, improving advertising precision for end users.
- Designed a user-friendly, responsive interface that helps marketing teams extract actionable insights with minimal friction.

ShareLyze | React.js, HTML, CSS, REST APIs

- Designed and developed a secure file-sharing platform supporting images and PDFs with full user authentication (registration and login).
- Built a real-time activity tracking system capturing views, user interactions, and IP-level insights to support analytics and security monitoring.
- Integrated REST APIs for dynamic data handling and implemented responsive design principles, ensuring consistent experience across all screen sizes.

EDUCATION

Bachelor of Computer Applications (BCA) | CGPA: 7.67 / 10

Hemchandracharya North Gujarat University, Palanpur, Gujarat · 2018 – 2022
